

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

NOV 20 2018

Re: PMN P-18-0136

Dear [REDACTED]

This letter responds to the above-referenced Premanufacture Notice (PMN), received by the Environmental Protection Agency (EPA) on April 9, 2018. The PMN described the chemical substance as [REDACTED]

EPA has determined in accordance with section 5(a)(3)(C) that this PMN substance is not likely to present an unreasonable risk of injury to health or the environment under the intended and reasonably foreseen conditions of use. Attached to this letter is a summary of the basis of EPA's determination. EPA has also identified certain circumstances of use that – while not known, intended, or reasonably foreseen conditions of use – EPA would consider to be significant new uses requiring further review. As such, EPA expects to issue a follow-up Significant New Use Rule (SNUR) designating the following as significant new uses:

- Import or Domestic Manufacturing resulting in dermal and /or inhalation exposure
- Releases to water that result in surface water concentrations exceeding 19ppb

Under TSCA section 5(g), you may begin manufacture of this PMN substance immediately and do not need to wait for the 90-day review period to expire. Please note that 40 CFR 720.102 requires you, within the first 30 days of commencement of manufacture (which includes import) of a PMN substance, to submit a Notice of Commencement (NOC) to EPA. Because you submitted your PMN to EPA after the effective date of the electronic-PMN ("eTSCA/ePMN") final rule (75 FR 773), you must use the eTSCA/ePMN software to submit your NOC. After April 6, 2012, all submissions are required to be submitted electronically via the internet using the Central Data Exchange (CDX). Please see [www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/how-submit-e-pmn](http://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/how-submit-e-pmn) for more information on the e-PMN software and directions on how to register and submit notices via CDX.

If you have any questions or comments, please contact me at (202) 564-8469.

Sincerely,

Greg Schweer, Chief

New Chemicals Management Branch
